

CRIME PREVENTION TIPS

Condominium Safety and Security

Attention to all residents,

Parkade thefts are an ongoing issue within the City of Calgary. The Calgary Police Service would like to remind you that in order to minimize the effects of this that you take the following precautions:

1. Remove any and all valuables from your car including **spare keys**, electronics, **wallets**, spare change, garage door opener (depending on the type of system installed) or anything else that would be considered valuable to others and not just yourself.
2. Ensure your vehicle is locked and double check before you leave.
3. Ensure you have a tamper proof lock on your storage locker.
4. Consider privacy tarps within your locker. Out of sight, out of mind.
5. Are you storing your bike? Consider removing the front tire and or seat and keeping it in your suite and placing a high-grade bike lock on the bike.
6. Please keep in mind that should you encounter any one tampering with your property to call 911 **IMMEDIATELY** and to try and provide a proper description of any offenders.

The Calgary Police would like to remind you that we make every effort to keep our communities safe, but we need the cooperation of our citizens to take some simple and proactive steps to minimize the risk of becoming a victim of any personal thefts.

Should you have any further questions, feel free to contact your specific Community Resource Office in your District

Thank you.
